

# BRICKGUN

## LEGO® Storage Labels

### Technic® Gears

v1.0

The following is the labeling system used in the BrickGun studio by our model designers.

Whether you're working with part collections that number in the tens or in the hundreds of thousands, having them organized in an easy-to-locate fashion is paramount. You want to spend time building, not scrounging to find the correct part in the correct color.

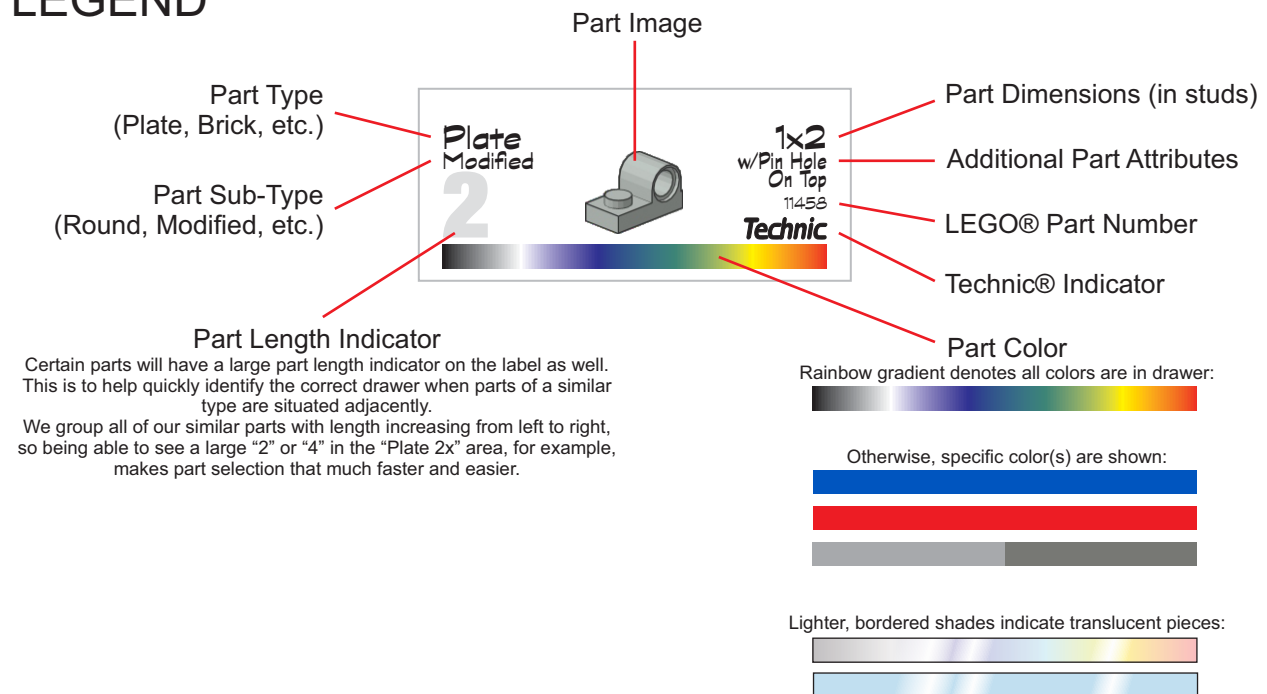

We employ a series of clear drawer organizers, similar to those made by Stack-On™, Akro-Mills™ and others. Our "standard" drawers are 2.75" wide, "narrow" drawers (for smaller parts, mostly Technic™) are 2" wide and other larger drawers are various heights and widths (for large parts and bulk storage).

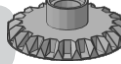

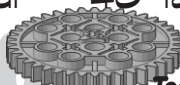

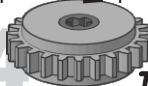

The racks are organized by part type (Plates, Bricks, Slopes, etc.) with similar parts increasing in dimension from left to right. Parts of the same type are separated by color vertically.

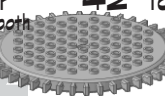

The labels provide all necessary information at a glance, showing what type and sub-type the part is, its image, dimensions and what colors of the part are in the particular drawer. The LEGO® part number is also included, which is helpful when ordering more or working in MLCAD or LDCad to document a design.

We print our labels on standard Inkjet or Laser Printers, using Avery full-sheet labels (8165). They are cut along the gray guidelines using a metal straight-edge and X-acto™ knife (with a #11 blade). A paper cutter can also be used if you have one at your disposal.

## LEGEND

<p><b>Gear</b> 8 Tooth 10928</p> <p><b>8</b>  <b>Technic</b></p> 	<p><b>Gear Bevel</b> 12 Tooth 6589</p> <p><b>12</b>  <b>Technic</b></p> 	<p><b>Gear Crown</b> 24 Tooth 3650</p> <p><b>24</b>  <b>Technic</b></p> 	<p><b>Pulley</b> 4185</p> <p> <b>Technic</b></p>
